OBJECTIVE

Information Science graduate with practical experience in MERN stack development, Android applications, and RESTful API integration. Seeking an entry-level Software Developer role to apply problem-solving skills and contribute to impactful software solutions.

EDUCATION

Cambridge Institute of Technology, Bengaluru
Information Science and Engineering

December 2022 – May 2026
CGPA: 7.48

PROJECTS

DevSync – Project Collaboration and Task Management Platform

- Built a MERN Stack developer collaboration platform where admins can create projects, manage applications, assign tasks, and monitor project progress through a project management dashboard. [\[GitHub\]](#)
- Designed a secure collaboration workflow that enables developers to explore projects, apply for collaborations, and track assigned tasks using JWT-based authentication and RESTful APIs. [\[Live Demo\]](#)

Personal Portfolio Website

- Built a full-stack responsive portfolio using HTML, CSS, and JavaScript with a Node.js and Express.js backend, enabling dynamic contact form submissions and seamless data storage through MongoDB Atlas.
- Deployed on Render with automated updates through GitHub. [\[Live Demo\]](#) [\[GitHub\]](#)

A Secure Blockchain-Based Protocol for Content Centric Networks

- Contributed to the front-end development of a final-year group project using HTML and CSS, designing responsive user interfaces and enhancing the user experience for a web-based credential verification system.

INTERNSHIP EXPERIENCE

Android App Development using Generative AI – *MindMatrix*

February 2026 – May 2026

- Developed the **Grama Urja** Android application using Kotlin for community-driven power monitoring, allowing users to report and track electricity availability in real time across villages.
- Integrated Firebase Realtime Database to support instant power status updates and reliable data synchronization across multiple users and geographically distributed village locations. [\[GitHub\]](#)

TECHNICAL SKILLS

Languages	JavaScript, HTML, CSS
Frontend	React.js
Backend	Node.js, Express.js, RESTful APIs, JWT Authentication
Databases	MongoDB, Firebase Realtime Database
Tools	VS Code, Android Studio, Git, GitHub, Thunder Client, Render

CERTIFICATIONS

- **Android App Development using Generative AI – *MindMatrix*** *May 2026*
- **Introduction to MERN Stack – *Simplilearn-SkillUp*** *April 2025*
- **Programming using Java – *Infosys Springboard*** *January 2024*

ACHIEVEMENTS

- Co-Author at **IEEE ICBDS 2025** for research on *A Secure Blockchain-Based Protocol for Content Centric Networks*.
- Certified in **Salesforce Agentblazer Championship 2026** through Salesforce.
